SUMMARY

Strategy and Operations professional with 8+ years of international experience designing, automating and scaling cross-functional processes across SaaS startups and retail tech. Focused on building scalable, tech-enabled operating models at the intersection of data and execution. Comfortable owning both strategy and hands-on implementation French native, fully bilingual in English. **Technical stack**: SQL, Python, Tableau.

EXPERIENCE

Strategy and Operations Manager — NIKE EHQ — Amsterdam, Netherlands **2024 – 2026**

- Built and scaled a cross-functional operating model across **200+** stores in EMEA, aligning **5** teams and driving **100%** on-time delivery of product and marketing initiatives.
- Saved **$15M** in yearly campaign revenue by translating global seasonal strategy into EMEA execution plans, governance routines, and cross-functional playbooks.
- Modelled EMEA store potential across sell-through, traffic, conversion and market trends to surface **10** new high-potential locations.

Sr. Analytics and Operations Manager — NIKE EHQ — Amsterdam, Netherlands **2022 – 2024**

- Owned the digital commerce quarterly intake process, standardizing cadence, scoping, and delivery planning across cross-functional teams, increasing project delivery rate by **20%**.
- Developed a member retention framework across **15** purchase journeys, shipping a self-serve Tableau dashboard used by **8** teams that lifted repeat-purchase rate **+3pp** in EMEA.
- Partnered with Marketing Science to design **30+** A/B tests measuring incremental impact of bespoke member communications on purchase and activity behaviors, and generated **$50M** in incremental campaign demand through experimentation (SQL, Adobe Analytics) and market research.

Product Operations Lead — NIELSENIQ (ex-Foxintelligence) — Paris, France **2021 – 2022**

- Rebuilt the product operating model for a multimillion-€ ARR B2B analytics SaaS platform (**100+** enterprise clients, **1,000+** users): hired, structured and retained a **5**-person cross-functional team.
- Established company-wide intake, prioritization, and delivery processes, coordinating **500+** product enhancements and fixes while reducing customer time-to-value by **25%**.
- Operationalized a freemium model that increased acquisition by **40%**, introducing a self-service lifecycle segmentation Tableau dashboard for Customer Success teams that supported an **82%** CSAT score.

Analytics Engineer and Client Operations Lead — NIELSENIQ (ex-Foxintelligence) — Paris, France **2019 – 2021**

- Reduced QA processing time by **90%** via automated weekly data quality checks using Tableau, enabling EU5 expansion.
- Built new enrichment pipelines using BigQuery and dbt, opening new business verticals and supporting the acquisition of **30** new enterprise clients and **€8M ARR**.
- Owned end-to-end client operations for **15+** high-value enterprise e-commerce accounts: managed onboarding, handled customer escalations and support requests, and delivered **100%** renewals and upsells across the full portfolio.

PERSONAL PROJECTS

RADAR — AI-powered Paris event discovery platform (https://radar.paris/) **2026 – present**

- Built and operated pipelines ingesting new events and venues from **100+** sources into one searchable map, using LLM-assisted extraction and n8n automation, and designed the mobile-first UI/UX for discovery.
- Defined a freshness-first data model (recency signals, categorization, deduplication) to continuously surface what's new in the city, running on free and open data at near-zero cost.

EDUCATION

Le Wagon — Advanced Data Science and AI certification — Paris, France **2026 – 2026**

- Machine Learning (regression, classification, clustering), Deep Learning (CNN, RNN, NLP), MLOps & AI.
- EOY project: ResNet50 CNN for AI-generated image detection — 92.7% accuracy.

ESSEC Business School — "Grande Ecole" Program — Paris, France **2015 – 2019**

- MSc in Management, Major in Big Data Analytics.

Saint-Louis de Gonzague, Franklin — « Classe Préparatoire » — Paris, France **2013 – 2015**

- Major in Mathematics & Economics.

HOBBIES

Stand-Up Comedian — Amsterdam, Paris **2022 – present**

- Performed for audiences of 10–450. Opened for Roman Frayssinet, Thomas VDB, and Redouane Harjane shows in Amsterdam.
